INTERACTIVE CHARGING. IT'S ALL ABOUT EFFICIENCY.

Etrel INCH charger is easily the smartest device in the building. It can predict your charging habits and help you charge the car by the time you need it at the lowest possible cost.

Minimal design with easy to navigate touch display and sound signals makes charging **simple**.

Clever use of artificial intelligence creates optimal charging plans for more **cost efficient charging**.

Several Identification options allow more **convenient access and accurate billing**.

When more chargers are connected in a cluster, available charging power is distributed to ensure all Evs are **charged at their desired departure time**.

Ripple control and power quality reactive giving security to low voltage networks.

TECHNICAL SPECIFICATION

Max charging power	22 kW; 3 x 32 A
Identification	PIN code, RFID card, SMS* or QR code*
Communication	Ethernet, LTE modem
Connectivity	OCPP 1.6 JSON, Modbus
